## Minnesota Pollution Control Agency

September 16, 1981

Mr. Ed Monteleone  
Hennepin County Department  
of Public Works  
320 Washington South  
Hopkins, Minnesota 55343

Dear Mr. Monteleone:

Enclosed is a copy of Soil Exploration Company's Study of Subsurface Contamination at Henkel Corporation, 2010 East Hennepin Avenue, Minneapolis, Minnesota. Mr. Donald Thimsen, Manager at General Mills, Inc. asked, during a telephone conversation of September 15, 1981, if we would be able to provide you with a copy of our report since he did not have any additional copies left. Also during the conversation, Mr. Thimsen indicated that General Mills, Inc. had retained Barr Engineering Company for engineering and hydrogeological consulting work in connection with the waste site at Henkel Corporation.

Members of the MPCA's staff have scheduled a meeting with representatives of General Mills, Inc. and Barr Engineering for September 30, 1981 at 10:00 a.m. to discuss a preliminary work plan for the site. The meeting will be held in the MPCA's Solid and Hazardous Waste Division's Conference Room and you are cordially invited to attend.

If you should have any additional questions concerning this matter, feel free to contact me at 297-3717.

Sincerely,

Michael B. Ayers  
Regulatory Compliance Section  
Solid and Hazardous Waste Division
